## **1. Executive Summary**

The year 2021 saw a return to a degree of normalcy compared to the previous year, when the pandemic wreaked havoc with Maine's harness racing industry. For 2021, two commercial tracks and seven agricultural fairs held complete meets and conducted a total of 144 days of racing, up from two tracks and 76 race days during the pandemic-shortened 2020 season.

2021 also marked the inaugural racing season for a new company operating as a commercial track; First Tracks Investments, LLC. First Tracks conducted 55 days of racing at the Cumberland Fairgrounds. The advent of a new commercial track operator coincided with the closure of Scarborough Downs following the 2020 racing season. Having a commercial track operating in Southern Maine is viewed as essential to the survival of harness racing in Maine. Horsemen, regulators, and fans collectively breathed a sigh of relief when the new operation opened in May of 2021.

First Tracks Investments is actively pursuing development of a modern, fan and horseman-friendly racetrack in Southern Maine. The company hopes to leverage the current strong global demand for live horseracing video with a wagering option. Until now, Maine's harness racing has done little to tap into this growing market. High-quality racing and video are key to this endeavor. After one year of operation, First Tracks has demonstrated it has the wherewithal to leverage this market, and the industry has taken notice. Optimism about the future of Maine harness racing is at a highpoint because of it.

### **Background/History of the Commission**

The Maine State Harness Racing Commission was originally created by Public Law 1975, Chapter 771, and reconstituted in 1997 to its current structure of five public members appointed by the Governor. One member must be affiliated with agricultural fairs, one member must represent the public, and three members must have knowledge of harness racing. Administrative support and staff are provided through the Department of Agriculture, Conservation and Forestry.

The Commission is responsible for rulemaking, adjudicating prohibited substance violations and appeals of a race judge's decisions, licensing of participants, tracks and off-track betting facilities, annually awarding race dates to the applicants, and promoting every aspect of the sport. It meets approximately monthly.

The Commission's staff exerts its presence at Maine's nine harness racing venues in a variety of ways. The staff serves as the Commission's presence at each track while overseeing the administration of Maine's harness racing laws. A veterinarian employed by the State monitors the health of participating horses and oversees a sampling program intended to ensure that Maine racing is not tainted by the inappropriate use of drugs. When prescribed, the State Veterinarian also administers furosemide to horses prior to racing to prevent pulmonary hemorrhaging. Finally, the Commission's staff also assists with on-site promotional activities.

## **2. Overview of Commission Operations and Actions**

Annually, the Commission's staff engages in a series of oversight and support activities intended to ensure the integrity of the sport, promote fairness and participation, and enhance the industry's economic viability. The Commission operates a licensing program for tracks, racing participants, and off-track betting facilities, which forms the first line of oversight. Every fall, the Commission holds a hearing to award race dates to the racing venues in a manner that best supports the interests of the industry. Commission staff and the State Veterinarians are present on every race day, providing on-site supervision of horses and racing. The Commission's staff processes enforcement cases and presents appeals to a judge's decisions to the Commission. Finally, the Commission recently assumed responsibility for promoting harness racing in the state.

### **RULEMAKING**

During calendar year 2021, the Commission adopted amendments covering Chapters 7, 9, and 13. Administrative rulemaking must be conducted in accordance with the Maine Administrative Procedures Act pursuant to Title 5, Chapter 375. All of the Commission's rules are considered routine technical rules as defined under Title 5, Section 8071. Routine technical rules do not require legislative review prior to final agency adoption.

## GRANTING LICENSES AND AWARDING RACE DATES

The Commission is authorized to issue annual licenses to entities desiring to hold harness races in which wagering is allowed. It also oversees the issuance of race dates to the various racing venues and issues licenses for simulcasting and to off-track betting facilities. Finally, the Commission licenses horse owners, trainers, drivers, grooms, and all other persons participating in harness racing, including pari-mutuel employees and race officials.

During the 2021 racing year, race days were awarded from April – December.

### **MAINE SIRE STAKES PROGRAM**

The Commission also oversees Maine's Sire Stakes Program, which seeks to encourage the breeding of Standardbred racehorses in Maine. The program requires the registration of participating stallions and mares and the resulting foals that will participate in the program. Revenues from both harness racing wagering profits and slot machine profits are designated—by statute—for the purpose of supplementing Sire Stakes race purses. In 2021, \$2,133,704 was designated to the Sire Stakes purse supplement fund.

During 2021, the Commission staff once again helped organize and implement the Sire Stakes program in collaboration with the Maine Standardbred Breeders and Owners Association (MSBOA) by projecting revenues, calculating the base purse for the legs, assisting with the schedule, and disbursing the purse payments to racing venues. The staff also took part in closing out the Sire Stakes season by attending the draws and assisting with on-site promotions for the 2-year-old and 3-year-old Sire Stakes Finals at Bangor Raceway.

Horses in the Sire Stakes events are tested for any prohibited substances as requested by the Sire Stakes Advisory Committee.

The Commission recognizes the efforts of each track for hosting, promoting, and providing assistance to showcase the Maine Sire Stakes Program. Additionally, the breeders, owners, Advisory Committee, and the MSBOA Board of Directors should be recognized for all the support of the Sire Stakes program.

## **MEDICATION/TESTING PROGRAMS**

### **BLOOD TESTING PROGRAM**

In most cases, blood samples are drawn from two horses after each race, including the winning horse and another horse designated by the Judges or Commission staff. Samples were analyzed by the University of Illinois at Chicago Analytical Forensic Testing Laboratory (AFTL), located in Chicago, Illinois. The laboratory is accredited by the Racing Medication and Testing Consortium (RMTC) and utilizes highly specialized methods to detect prohibited drugs or therapeutic medications that exceeded the permitted levels as stated in the Maine State Harness Racing rules.

Initial screening of samples is done primarily using either gas or liquid chromatography coupled with mass spectrometry. These dual instrument methods allow for greater confidence in analyte identification. Confirmatory tests generally utilize the same instrumentation, but the method is refined to target and quantify the specific analyte in question.

During the 2021 racing year, 2,916 post-race equine blood samples were taken. Of that total, there were three positive tests, all of which were found to be in violation of the Commission's rules.

### **OUT OF COMPETITION TESTING PROGRAM**

Beginning in 2008, the Commission requested the staff test for "blood doping" agents, such as erythropoietin (EPO). This procedure requires taking blood from the horses at the tracks and training centers on days when the horse is not scheduled to race and transferring it to the laboratory for analysis. In 2021, there were 40 horses tested out of competition, none of which were found to be in violation.

### **BLOOD GAS TESTING PROGRAM**

The Blood Gas Testing Program was established in 1993 at the request of the Commission. The program requires taking blood from horses shortly before they are scheduled to race and transferring it to the laboratory for analysis. In 2021, 571 pre-race samples were taken to test for blood gas anomalies. Out of the 571 tests, two were in violation, and are yet to be adjudicated.

### **FUROSEMIDE PROGRAM**

The Furosemide Program, formally known as the Controlled Medication Program, was established in 1992 by statute. The program allowed tolerances for horses that use phenylbutazone and furosemide. The Commission voted to eliminate phenylbutazone from the Controlled Medication Program in June 2014. Consequently, the program now provides for on-site administration of furosemide only by the State Veterinarian on race day. There were 505 horses participating in this program in 2021. Throughout the year, 20 horses went off the program.

#### HUMAN DRUG TESTING PROGRAM

The Human Drug Testing Program was created to test anyone with a Maine State Harness Racing license while in the paddock on race day. This program was designed to ensure the safety of the licensees and horses, on and off the track. Urine is collected by the State Stewards.

## COMMISSION ACTION ON 2021 RULE VIOLATIONS

Appeals                    5                    Still Pending Commission Action      0

### ACCOUNT OF COMMISSION’S ACTIONS REGARDING PROMOTION OF HARNESS RACING

The Commission recognized that improving the marketing of Maine harness racing is paramount to its long-term survival. In late 2016, a small group of industry stakeholders began brainstorming ideas to improve marketing and better coordinate marketing between industry associations, fairs, and commercial tracks. Responsibility for promotion of the sport was transferred to the Department in 2018. The Department coordinates marketing efforts with the tracks, fairs, and horsemen. Marketing is now handled by a professional marketing firm.

During 2021, the Department sought to contain expenditures due to the ongoing pandemic conditions. Marketing efforts were focused on basic, low-cost advertising on Facebook. For the 2021 calendar year, a total of approximately \$29,739 was expended for advertising and the services of a marketing firm, while another \$2,856 was spent on Facebook advertising (boosts).

### 3. Practical Effect of Title 8, Chapter 11 and Recommended Legislation

Title 8, Chapter 11 establishes the State Harness Racing Commission and provides statutory authority for the oversight and regulation of harness racing in the state. It authorizes licensing of participants, tracks, and off-track betting facilities and for the allocation of race dates between the various racing venues. During 2018, marketing responsibility was transferred to the Commission. Chapter 11 contains extensive rulemaking authority for the Commission, which has resulted in the promulgation of eleven chapters of rules.

In general, Chapter 11 provides adequate authority to regulate and support Maine’s harness racing industry. However, the world of harness racing is evolving rapidly to keep pace with quickly changing landscapes involving entertainment and wagering. As a result, the harness racing statutes will need frequent updates going forward in order for Maine’s industry to remain viable. While changing times present challenges, they also present opportunities. There is optimism that Maine is uniquely positioned to fill a developing void/niche. Live/quality harness racing video appears to be a possible growth opportunity that industry insiders are looking to leverage in the future.

#### **4. Report of the Commission's Financial Position**

The Commission derives its operating budget from four revenue sources as follows:

1. The Department's share from the Commission on harness racing wagering profits;
2. Licensing fees associated with racing participants, tracks, race dates, and off-track betting facilities;
3. Revenue from the administration of the furosemide program; and
4. To the degree necessary to remain solvent, periodic administrative assessments against revenue allocated pursuant to Title 8, Section 1036, Subsection 2, paragraphs B, C, D, H, and I.

In essence, the Commission operates under a zero-sum budget principle, inasmuch as it attempts to make administrative assessments that ensure that revenues are approximately equal to expenditures by year-end. The table below summarizes both revenues and expenditures for calendar year 2021.

To explain why MHRC's expenses exceeded revenues, note that every calendar year, the MHRC makes administrative assessments against Racino slot revenue to cover any annual operating cost shortfalls. Due to the COVID-19 pandemic in March of 2020, all businesses that supply revenue to the MSHRC shut down. The MSHRC made a large assessment based on the presumption that those businesses would remain closed for an indefinite period of time. Ultimately, MSHRC was able to carry forward assessment monies because Racino businesses reopened sooner than MSHRC estimated.

## **9. Use of Funds by Commercial Tracks (pursuant to 8 MRS § 1037(1))**

There were two (2) licensed pari-mutuel facilities that met the definition of a Commercial Race Track pursuant to 8 MRS Section 275-A. One is in Cumberland and the other in Bangor.

First Tracks conducted 55 days of live racing and offered wagering on 504 dashes, and HC Bangor LLC, DBA Hollywood Casino Hotel & Raceway conducted 42 days of live racing and offered wagering on 361 dashes; both locations offered video broadcast to the off-track betting facilities in Maine as well as out-of-state. Both facilities were licensed to accept pari-mutuel wagers on simulcast races for 363 days in 2021.

The revenues received from the Fund To Encourage Racing At Maine's Commercial Tracks were used by the recipients to defray expenses incurred in conducting live racing and accepting pari-mutuel wagers throughout the calendar year.

The information required to be reported in 8 MRS Section 1037 subsection 1 is contained on the following pages.

## 10. Use of Funds by Fairs that Conduct Harness Racing (pursuant to 8 MRS §1037 (2))

There were eight (8) licensed agricultural fairs that were granted live racing licenses and were awarded race dates for the 2021 racing season. Due to the impacts from COVID-19, one pari-mutuel fair did not hold harness racing in 2021. Consequently, 47 awarded race dates were used.

## 12. Use of Funds by the Maine Standardbred Breeding Program (pursuant to 8 MRS § 1037 (4))

Maine has experienced a decrease in the number of Sire Stakes eligible horses participating in overnight events, therefore the need continues for additional horses from other racing jurisdictions to participate in Maine's overnight racing program.
