

To all Interested Parties:

On August 4, 2010, at the regular monthly business meeting, the LURC Commissioners voted to allow the record for Development Permit DP 4680 to be re-opened to allow TransCanada to submit a revised proposal for the Kibby Expansion Project ("Kibby 2") on or about August 16th.

The Commission also voted to table the decision document on that matter which had been scheduled to be taken up at the August 4th meeting. The Commission also voted to stop consideration of the proposed rule to expand the expedited area ("Kibby 3"), meaning that no rule change would be adopted.

When the revised proposal is submitted, it will be posted on LURC's website for this project:

At the August meeting, the Commission directed staff to prepare a draft of the process and schedule for reviewing the revised proposal, which will be brought before the Commission at its September 1, 2010 regular monthly business meeting.
