Re: Capabilities Statement – Bowers Wind Project

Dear Mr. Todd,

This letter is to confirm that Pine Tree Waste Services located in Hermon, ME has the capabilities to pick up, truck, and dispose of annual volumes of (CDD) construction demolition debris as well as CDD material generated by proposed construction at the Bowers Wind Project located in Carroll Plantation and Kossuth Township. These materials can be disposed of at the Juniper Ridge Secured Landfill Facility located in Old Town, ME.

Pine Tree Waste Services can also transport volumes of non-hazardous MSW (Municipal Solid Waste) to the Penobscot Energy Recovery Corporation facility located in Orrington, ME. We are also prepared to handle all amounts of recycled products that may be generated from this development.

This letter is not a quote for services. Rather it is a statement of capabilities. The sole purpose of this letter is to communicate the willingness and capabilities that Pine Tree Waste Services has towards providing this services as requested.

Please feel free to contact me with any future requests. I can be reached at (207) 848-7551 ext.115

Sincerely,

A handwritten signature in black ink, appearing to read "Adam Graham", enclosed within a hand-drawn oval.

Adam Graham
Accounts Manager
Pine Tree Waste Services
