Re: Revised Application for the Black Nubble Wind Farm ZP 702

Dear Ms. Spencer Famous,

Maine Mountain Power is pleased to submit this Revised Application for the Black Nubble Wind Farm. The Revised Application is largely the same as the original application. In keeping with the request of LURC staff and Chairman Harvey, we have gone to great pains to make clear in the Revised Application where there are changes from the original application by underlining anything new. Also, any information that MMP has imported into the Revised Application from another place in the original application or from written and/or oral hearing testimony is underlined and annotated with a footnote to indicate the original source. We hope this serves to make this document easier to review.

We thank staff and the Commissioners for this opportunity to present the Black Nubble Wind Farm and look forward to working with LURC and parties to review it.

Yours truly,

A handwritten signature in black ink, appearing to read "Harley Lee".
