

11/22/05:

Hi Donna,

I was relieved to hear that you and Harley were able to come to a resolution over the daytime lighting of our wind turbines. I contacted the sales representative of Vestas (turbine manufacturer) and requested the color numbers for their turbines.

They are listed below. Please let us know which you would refer.

Thanks,
-jason

Subject: RE: Turbine Color Choices

Jason,

The colors are:
White - RAL 9010
Grey - RAL 7035

Regards,
Cynthia
