

## Pre and Post Evaluation of Students

- 1) All mosquitoes bite humans. **True/ False**
- 2) Mosquitoes need \_\_\_\_\_ to complete their lifecycle, from the egg stage to the adult stage.
  - a) a warm place
  - b) a shady tree
  - c) houses
  - d) water
- 3) Mosquito eggs hatch into \_\_\_\_\_.
  - a) adults
  - b) beetles
  - c) children
  - d) larvae
- 4) IPM stands for Integrated Pest Management. **True/ False**
- 5) Male and female mosquitoes feed on \_\_\_\_\_ produced by flowers.
  - a) juice
  - b) nectar
  - c) water
  - d) oranges
- 6) Mosquitoes can transmit diseases, such as the West Nile Virus. **True/ False**
- 7) What are the stages in a mosquito's lifecycle?
  - a) egg, larvae, pupae, adult
  - b) egg, virus, water, adult
  - c) baby, teenager, adult
  - d) egg, blood, beetles, adult
- 8) Any object that can hold water is a potential place for mosquitoes to complete their lifecycle, from the egg stage to the adult stage. **True/False**
- 9) How can we reduce the number of mosquitoes in our own backyards?
  - a) drain standing water
  - b) remove leaf litter from the rain gutters
  - c) change the water in bird baths weekly
  - d) all of the above
- 10) Mosquitoes are active during the day and night. **True/ False**
