

Stratosphere Consulting
PO Box 621
Kittery, ME 03904
connect@stratospheretc.com

Stratosphere is pleased to provide the following quote for services for enhancements to the MePERLS application:

Statement of Work

The work effort is defined in the following User Stories:

- US-4467 Inspection Forms
- US-4510 Annual Use Reporting

Staffing Requirements

The effort is expected to include one or more certified Pega Senior System Architects and one or more qualified testing resources. Given that the scope is small, we do not anticipate the need for other dedicated resources.

Pricing

The aforementioned work is quoted at the following:

| | | |
|-------------------------------|----------|---|
| US-4467 Inspection Forms: | \$38,750 | 250 hours development, 50 hours testing |
| US-4510 Annual Use Reporting: | \$19,375 | 125 hours development, 25 hours testing |
| Deployment Certification: | \$2,700 | |

This quote is an estimate and represents both a maximal cost and effort to the department on a T&M basis. This does not include any potential licensing costs, OIT costs, or other costs not explicitly defined herein.

Thank you -

Colin Campbell
CEO, Stratosphere Consulting
