3. LD 2019—An Act To Require the Registration of Adjuvants in the State and To Regulate the Distribution of Pesticides with Perfluoroalkyl and Polyfluoroalkyl Substances

At its June 17, 2022 meeting, the Board reviewed/discussed LD 2019. It requested that the staff provide information on existing regulations relative to pesticide containers and to research options relative to defining what “contamination” means in the context of the bill. Staff has provided two memos, one summarizing the August 5, 2022 Board discussion of possible rulemaking pathways and federal preemption and a second summarizing relevant technical information prepared in response to Board member questions. The second memo also addresses the recently published EPA container leachate study.
