Subject: FW: requirements for identifying chemicals sprayed on lawns

Ms. Spear requests that her concerns, as expressed in this email, be made part of the documents given to the Board for the next meeting.

Thanks,
C

Hello Megan,

Signs have been posted on two properties sprayed in my neighborhood without product information, EPA registration number, reason for application, etc. I called Modern Pest Control for the specifics, and they refused to disclose them.

Before I decide whether to ask that this memo be included on the agenda for next week's meeting, I need to speak with you about the problem. I have no computer at home and won't likely have access to e-mail again until after the Tuesday deadline. Please call me tomorrow at 326-8764. I have questions also about LD 1505.

Thanks,
Jody Spear
