

Maine Center for Disease Control and Prevention
Monthly STD/HIV Data Update

Cases diagnosed from January 1st to June 30th, 2009

This Monthly Update provides summary year-to-date (YTD) data about HIV and STDs in Maine. For each disease, the YTD total is shown and compared with the median* YTD values for the previous five years. Please note that data presented here may change due to reporting delays or pending epidemiologic investigations.

For more information contact: Robert Funa at (207) 287-5193 or robert.funa@maine.gov
