

The Annual Conference features a presentation by Candice Robinson MD, MPH, LCDR on Vaccine Preventable Disease Outbreaks and Challenges in Vaccination.

Division of Disease Control

Annual Infectious Disease Conference

Emerging Technologies - Advances in Diagnosis & Laboratory Testing

November 15, 2017 at the Augusta Civic Center

The annual Infectious Disease Conference targets public health issues of emerging concern. Presentations topics will focus on a range of infectious diseases, immunizations, and emerging technologies. Continuing Education is available for continuing medical/nursing education, pharmacy, AAFP, and general education. Join your colleagues to discuss emerging issues in this remarkable year for our field.

Visit the [event website](#) to view the agenda and additional details.

The annual conference is organized by the [Maine CDC, Division of Disease Control, DHHS](#). Conference supported by [AdCare Educational Institute of Maine](#), a Maine CDC Partner.
