

Animal Behavioral Research Observation Data Collection Chart

DIRECTIONS:

Spend 4 minutes studying the animal(s) at one wildlife exhibit of your choice. As you observe your animal(s) and at 30 second intervals, put a check in the behavior box(es) that best match your animals' actions. Use the "Other" box at the bottom to add behaviors you observe that are not listed. If you have a camera, take pictures of each behavior.

<i>Wildlife Exhibit:</i> _____	30 second time intervals							
BEHAVIOR	30 sec	1 min	30 sec	2 min	30 sec	3 min	30 sec	4 min
Walking								
Sitting Alone								
Sitting With Others								
Jumping								
Climbing								
Playing
